

PRITERM

HEAT TRANSFER OIL

❖ DESCRIPTION PRODUCT

- PRIMELUB HTO is oil hot paraffin-based mover viscosity is high, equipped with anti oxidant additive, with characteristics of resistance to high temperature oxidation, heat transfer properties a very good so can transfer heat efficiently. Suppress the formation of deposit, good thermal stability and good oxidation resistance, longer usage time.

❖ APPLICATION PRODUCT

- PRITERM used for media mover hot on a hot mover equipment system open and closed.

❖ CHARACTERISTICS PRODUCT

SAE	32	46	150
Specific Gravity 15°C	0.872	0.878	0.888
Viscosity Kinematic, at 40°C, cSt	33.60	46	150
100°C, cSt	5.70	6.8	15
Viscosity Index	112	102	100
POUR POINT, °C	-15	-18	-9
FLASH POINT, °C	225	230	227
Color ASTM	L 0.5	L 0.5	L 1.5
Copper Strip Corrosion	1b	1b	1b
